The following is an examiner's statement of reasons for allowance: the recitation of a modular drive assembly having a guide track with a hinge assembly slidably received therein, a pair of pulleys disposed on either end of the guide track and the path of travel between the two pulleys defines the open and closed door limits, a pair of cables each secured to the hinge assembly and the other end being secured to a cable drum of a motor drive unit and the hinge assembly passes a portion of one of said pair of pulleys when the hinge assembly is at the closed door limit and the hinge assembly passes a portion of the other of one of said pair of pulleys when the hinge assembly is at the open door limit is seen as an unobvious improvement over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
